or from H.M. STATIONERY OFFICE at the following addresses :

IMPERIAL HOUSE, KINGSWAY, LONDON, W.C.2, and 28, ABINGDON STREET, LONDON, S.W.1
37, PETER STREET, MANCHESTER ; 1, ST. ANDREW'S CRESCENT, CARDIFF ;
23, FORTH STREET, EDINBURGH.

Price One Shilling.

Marriages :—OCTOBER, NOVEMBER, DECEMBER, 1917.

Births and Deaths.—JAN., FEB., MAR., 1918.

During the quarter ended 31st March last, there were registered in the 829 Registrars' Districts in Ireland 21,116 births—a number equal to an annual birth-rate of 19·5 in every 1,000 of the estimated population.* There were 18,359 deaths during the quarter, representing an annual rate of 16·9 per 1,000.

In the same period (according to the returns obtained by the Royal Irish Constabulary and the Dublin Metropolitan Police who acted as enumerators at the several Irish seaports), 285 persons emigrated, 262 of these going to Great Britain.

In England and Wales last quarter the births registered numbered 162,740, and the deaths 138,502, the corresponding numbers for the first quarter of 1917 being 178,725 and 163,919.

The birth-rate in Ireland for the quarter is 3·6 below the average rate for the corresponding quarter of the ten years, 1908–1917, and 1·0 below the rate for the first quarter of 1917. The deaths are 6,861 below those registered in the corresponding quarter of 1917 ; the death-rate is 6·4 below the rate for that quarter, and 3·3 below the average for the first quarter of the ten years, 1908–1917.

In comparison with those for the corresponding quarter of 1917, the returns of pauperism furnished by the Local Government Board show a decrease of 3,122 in the average number of Workhouse inmates on Saturdays during the quarter, and a decrease of 298 in the average number of persons on out-door relief.

* See page 14.

The annual rate (4·7 per 1,000 of the population) represented by the marriages registered during the fourth quarter of 1917 is 0·2 below the average rate for the corresponding quarter of the preceding ten years.

TABLE I.—Showing for each PROVINCE and COUNTY in Ireland, the Annual Rate per 1,000 of the population,* represented by the number of MARRIAGES registered during the Quarter ended 31st December, 1917, and by the BIRTHS and DEATHS registered in the Quarter ended 31st March, 1918.

* Throughout this Report the rates for the total of Ireland are calculated on the estimated population in the middle of 1915; those for the county boroughs of Dublin and Belfast and Londonderry Co. and Co. Borough on the population estimated to the middle of the year 1917; and those for the provinces and remaining counties on the population according to the Census of 1911.

MARRIAGES.

The Marriages (5,127) registered in Ireland during the fourth quarter of 1917 are equivalent to an annual rate of 4·7 per 1,000 of the estimated population, being equal to the rate for the corresponding quarter of 1916, and 0·2 below the average rate for the fourth quarter of the ten years, 1907-1916. Of the total number of marriages, 3,405 were registered under the provisions of the 26 and 27 Vic., cap. 90, and 1,722 under the 7 and 8 Vic., cap. 81; the former number being equal to an annual rate of 4·2 per 1,000 of the estimated Roman Catholic population, and the latter affording a rate of 6·1 per 1,000 of the members of all other religious persuasions. The rate under the former heading is 0·3 below, and that under the latter heading is equal to the average rate for the corresponding quarter of the previous ten years.

Of 21,187 marriages during the year 1917, there were registered in the first quarter, 5,941; in the second, 4,886; in the third, 5,233; and in the fourth, 5,127.

TABLE II.—Showing by QUARTERLY PERIODS the MARRIAGES registered in Ireland in each of the eleven years, 1907–1917, and the average number for the ten years 1907–1916.

BIRTHS.

The number of births registered during the quarter ended 31st March last was 21,116—10,776 boys and 10,340 girls—being equal to an annual ratio of 1 in every 51.3 or 19.5 per 1,000 of the estimated population. The average number of births registered during the corresponding quarter of the ten years, 1908–17, was 25,183, equivalent to an annual rate of 23.1 per 1,000 of the estimated mean population of those years.

The respective birth-rates for the four provinces* last quarter are—Leinster, 19.4 per 1,000 of the population according to the Census of 1911; Munster, 19.0; Ulster, 19.4; and Connaught, 19.0.

DEATHS.

The number of deaths registered in Ireland during the quarter ended 31st March last was 18,359—9,113 males and 9,246 females—affording an annual ratio of 1 in every 59.1 or 16.9 per 1,000 of the estimated population; the average rate for the corresponding quarter of the ten years, 1908–17, was 20.2 per 1,000.

The death-rate in Leinster was 18.0 per 1,000 of the population according to the Census of 1911; in Munster, 15.4; in Ulster, 17.9; and in Connaught, 13.6.

* See note (*) on page 2.

TABLE III.—Showing by QUARTERLY PERIODS the number of BIRTHS and DEATHS registered in Ireland in each of the ten years 1903–1917, and the average number for that period; also the number registered during the first quarter of the year 1918:—

| 1918, | 19.5 | — | — | — | — | 16.9 | — | — | — | — |

AGES.—Of the 18,359 deaths registered last quarter, 1,944, or 10.6 per cent., were of infants under one year of age; and 7,772, or 42.3 per cent., were of persons aged 65 years and upwards. The deaths of infants under one year old are equal to 92.1 per 1,000 of the births registered. In the Province of Leinster the number of deaths of infants under one year old equalled 11.9 per cent. of the total deaths registered therein; in Munster, 9.6 per cent.; in Ulster, 10.8 per cent.; and in Connaught, 8.4 per cent. The deaths of persons 65 years old and upwards registered during the quarter in Leinster are equal to 37.7 per cent.; in Munster to 43.7 per cent.; in Ulster, to 41.1 per cent.; and in Connaught to 55.7 per cent. of the total deaths registered in the province.

CAUSES OF DEATH.

As may be seen from the following Table the total number of deaths from the principal epidemic diseases during the quarter is 868, (equivalent to an annual rate of 0.80 per 1,000 of the population) and is 45 (or 0.04 per 1,000) under the average for the first quarter of the five years preceding.

TABLE IV.—Showing the number of deaths from the principal epidemic diseases returned by the Registrars as having been registered during the quarter ended 31st March, 1918, and in each of the eight quarters immediately preceding; with the averages for the first quarter of the five years, 1913–1917, and the corresponding annual rates per 1,000 of the population, represented by the deaths from these causes, during the periods above referred to.

ENTERIC FEVER.—Deaths from enteric fever, which numbered 71, 57 and 61, respectively, in the three preceding quarters, fell to 53 in the quarter ended 31st March last, the latter number being 10 under the average for the first quarter of the five years 1913-17.

Of the 53 deaths, 5 (four appertaining to Belfast county borough) occurred in Lisburn union, 4 each in Dublin North, Dublin South, Kilmallock and Rathdrum, 3 each in Limerick, Rathkeale and Sligo, and 2 deaths each in Callan and Listowel unions.

TYPHUS.—This disease accounted for 15 fatalities during the quarter, as against 24, 8 and 5, respectively, in the three preceding quarters and an average of 12 for the first quarter of the five years 1913-17. Seven deaths from typhus were registered in Belmullet union, 2 in Ballina, 2 in Lisburn (both belonging to Belfast county Borough) and one death each in Belfast, Granard, Killarney and Longford Unions.

SMALL-POX.—No case of this disease was reported.

MEASLES.—The deaths from measles during the quarter, numbering 222, represent an annual rate of 0·20 per 1,000 of the population. This number, which is above that for any of the three preceding quarters, viz., 143, 45, and 137, respectively, is also above the average (220) for the first quarter of the five years, 1913-17. The unions in which five or more deaths from measles occurred were as follows:—Belfast (74), Limerick (24), Dublin North (19), Dublin South (17), Cork (18), Kilkenny (7), Athlone (6), Ballymena (5), Kilmallock (5), and Rathdrum (5).

SCARLET FEVER.—Deaths from scarlet fever, which in the three quarters preceding numbered 21, 34 and 22, also numbered 22 in the past quarter. This number is much below the average (85) for the first quarter of the five years preceding. Of the deaths from this cause 4 (all appertaining to Belfast county borough) took place in Lisburn union, 3 in Dublin South, one in Dublin North, and 2 in Cavan union.

WHOOPING-COUGH.—A very high mortality from whooping-cough in Ireland characterised the quarter just ended, no less than 302 deaths, equivalent to an annual rate of 0·28 per 1,000 of the population, having been registered. This mortality exceeds that for any quarter since the period ended 31st March, 1912, during which 353 deaths were registered, and is 91 above the average for the first quarter of the five years, 1913-17.

In Belfast union 147 deaths were registered, in Dublin North 39, in Dublin South 23, in Larne 9, in Newry 8, in Ballina, Cork and Newtownards 7 deaths each, in Inishowen 6, and in Antrim and Swineford 5 deaths each.

It will be observed that the deaths in Belfast, and Dublin North and South unions, numbering 209, constitute more than 69 per cent. of all the deaths from whooping-cough registered in Ireland during the quarter.

DIPHTHERIA.—The fatal cases of this disease numbered 66, as compared with 44, 56 and 74 during the three preceding quarters and an average of 90 for the first quarter of the five preceding years. Twenty-seven of the 66 deaths occurred in the following unions:—Lisburn 10 (nine of these appertaining to Belfast county borough), Dublin South (6), Listowel (6), and Dublin North (5).

DIARRHOEAL DISEASES.—To this heading 185 deaths, including 138 deaths from diarrhoea and enteritis of children under 2 years of age, were referred. The 185 deaths are 42 under the average (227) for the first quarter of the five years, 1913-17.

TUBERCULOSIS.—As returned by the Registrars, the deaths from tuberculous disease during the quarter numbered 2,376 and represent an annual rate of 2·19 per 1,000 of the population, as against 2·65, 1·91 and 1·65, respectively, in the three preceding quarters.

The 2,376 deaths are 108 under the average (2,484) for the first quarter of the five years, 1913-17.

CANCER.—There were 862 deaths from cancer, as compared with 894, 808, and 882 in the three preceding quarters. The 862 deaths are equivalent to an annual rate of 0·80 per 1,000 of the population.

VIOLENCE.—The deaths caused by violence (which includes accidental, homicidal and suicidal cases) registered during the quarter numbered 250.

INQUESTS.

There were 327 inquests reported to the Registrars during the quarter, this number being equal to one in every 56 of the total deaths registered.

In Leinster there was one inquest to every 68 deaths registered, in Munster one to 80, in Ulster one to 38, and in Connaught one to 160.

DEATHS IN PUBLIC INSTITUTIONS.

Of the 18,359 deaths registered, 3,950, or 21·5 per cent., occurred in public institutions. In Leinster the percentage was 29·2, in Munster 25·8, in Ulster 15·8, and in Connaught 13·3.

UNCERTIFIED DEATHS.

According to the returns, 4,389 of the 18,359 deaths registered during the quarter were uncertified, being 24 per cent. of the total. In Leinster the percentage was 17, in Munster 28, in Ulster 18, and in Connaught the uncertified deaths were 54 per cent. of the total deaths registered in the province.

URBAN DISTRICTS.

THE QUARTER.

Table V. gives separate statistics for the Urban Districts. It will be observed that the birth-rate last quarter for these districts, which contain nearly one-third of the total population of the country, was 21·7 per 1,000 of the population, the rates for the three preceding quarters being 23·4, 21·9, and 19·2, respectively, and the average rate for the 5 years, 1913-17, being 25·8. In the remainder of the country the birth rate was 18·1 per 1,000, as against 20·5, 18·0, and 17·1, respectively, in the three preceding quarters, and an average rate for the corresponding quarter of the previous five years of 20·6.

The annual rate represented by the deaths from all causes for the Urban Districts during the quarter was 18·9 per 1,000, as compared with 17·8, 13·1, and 14·2, respectively, for the last three quarters and an average of 22·6 for the first quarter of the five years, 1913-17. In the remainder of the country the death-rate for the quarter was 15·7, the respective rates for the three preceding quarters being 17·2, 12·1, and 13·2, per 1,000, the average rate for the five years, 1913-17, being 19·5.

For the principal epidemic diseases* in the several Urban Districts the annual rate represented by the deaths from them during the quarter under review was 1·7 per 1,000 of the population. In the remainder of the country it was 0·4

* See note (†) on page 7.

URBAN DISTRICTS.

TABLE V.—BIRTHS and DEATHS registered during the FIRST QUARTER of the year 1918, in the DUBLIN REGISTRATION AREA, and in each of the PROVINCIAL URBAN DISTRICTS in IRELAND (exclusive of Deaths in Public Institutions of Persons admitted from other localities), with the number of deaths from each of the PRINCIPAL EPIDEMIC DISEASES †, from TUBERCULOUS DISEASE, and from CANCER, with the number of Uncertified Deaths.

NOTE.—“The Dublin Registration Area,” consists of the City of Dublin and the Urban Districts of Rathmines and Rathgar, Pembroke, Blackrock, and Kingstown. The details for it and for each of the eighteen Urban Districts marked thus (*) in the following Table have been compiled from the Weekly Returns furnished by the Registrars, and relate to the thirteen weeks ending Saturday, 31st March, 1918.

| REGISTRATION, FIRST QUARTER, 1918. | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |

(a) Including 2 deaths from cerebro-spinal meningitis.

(a) Including 2 deaths from cerebro-spinal meningitis, 1 from enteric fever, 2 from typhus, 4 from scarlet fever, 9 from diphtheria, 4 from tuberculous disease, and one from cerebro-spinal fever admitted from the City of Belfast to institutions situated in the Registrar's District of Ballvasson, in the Union of Lisburn, and the deaths of 2 persons from cerebro-spinal meningitis, registered in Belfast.

(c) Including one death from cerebro-spinal meningitis.

VACCINATION.

According to the Returns of Primary Vaccinations received for the first quarter of the year 1918, there were 10,167 persons successfully vaccinated.

EMIGRATION.

The Returns obtained by the Royal Irish Constabulary and the Dublin Metropolitan Police, who acted as enumerators at the several Irish seaports, show that the number of emigrants who left Ireland during the quarter ended 31st March was 285 (151 males and 134 females), being 213 less than in the corresponding quarter of the year 1917, and 2,495 below the average number for the first quarter of the ten years 1908–1917.

TABLE VI.—EMIGRATION from IRELAND during the months of January, February, and March, in 1917 and 1918 :—

| MONTHS. | NUMBER OF EMIGRANTS. | | | | | | | | | | | |
|--------------|----------------------|-------|------------|------------|----------|-------|------------|------------|--------|-------|------------|------------|
| | Males. | | | | Females. | | | | Total. | | | |
| | 1917. | 1918. | In-crease. | De-crease. | 1917. | 1918. | In-crease. | De-crease. | 1917. | 1918. | In-crease. | De-crease. |
| January, .. | 68 | 79 | 11 | . | 150 | 63 | . | 87 | 218 | 142 | . | 76 |
| February, .. | 57 | 31 | . | 26 | 99 | 27 | . | 72 | 156 | 58 | . | 98 |
| March, .. | 40 | 41 | 1 | . | 84 | 44 | . | 40 | 124 | 85 | . | 39 |
| TOTAL, .. | 165 | 151 | . | 14 | 333 | 134 | . | 199 | 498 | 285* | . | 213 |

*Including 262 emigrants to Great Britain. Of these 127 left in the month of January, 58 in February, and 77 in March.

PRICES AND PAUPERISM.

The average price of the 4-lb. loaf (delivered) for last quarter was 9*d.* In the first quarter of the year 1917 the average price for Messrs. Boland's was 10½*d.*, and for Messrs. Johnston, Mooney, and O'Brien's 10¼*d.*, and in the corresponding quarter of 1908 it was 6½*d.* for both firms.

The average price of oatmeal (1st quality) in Dublin for the quarter was 34*s.* 0*d.* per cwt. For the first quarter of the year 1917 the average price was 33*s.* 3*d.*, and for the first quarter of 1908 the average price was 15*s.* 0*d.* per cwt.

The average price per cwt. of potatoes at the Dublin Potato Market for the quarter was 4*s.* 0*d.* In the first quarter of 1917 the average price was 10*s.* 5½*d.*, and the price for the corresponding quarter of 1908 was 4*s.* 4¾*d.*

The average price per cwt. of beef at the Dublin Cattle Market was 138*s.* 9*d.*, as against 124*s.* 9*d.* for the first quarter of 1917, the price for the first quarter of 1908 being 57*s.* 3*d.*

The price (including cartage) of Whitehaven coal in the City of Dublin ranged from 48*s.* to 50*s.* per ton nett.

The highest price of Consols at the Dublin Stock Exchange for the quarter was £55⅜, and the lowest £53⅝.

The minimum annual rate of discount charged on Irish Bills at the Bank of Ireland during the quarter was 5 per cent.

NOTE.—The prices of Consols at the Dublin Stock Exchange have been kindly furnished by the Secretary:

The average weekly number of persons receiving out-door relief during the quarter was 35,175, being 298 below the average for the first quarter of 1917.

Of the persons receiving in-door relief during the first quarter of 1918, an average number of 1,567 in each week was located in asylums for the blind and the deaf and dumb, and in extern hospitals; in the corresponding quarter of 1917 the average weekly number was 1,616.

TABLE VII.—Showing the AVERAGE PRICES in DUBLIN of BREAD, OATMEAL, POTATOES, and BEEF, during the quarter (13 weeks) ended 30th March, 1918, with the average for the fourth quarter of the previous ten years, and the NUMBER of PERSONS in IRELAND receiving IN-DOOR AND OUT-DOOR RELIEF.

(a) Messrs. Boland's, Limited.

(b) Messrs. Johnston, Mooney, and O'Brien's (Limited) 4-lb. loaf delivered; the price in Messrs. Johnston, Mooney and O'Brien's shops, exclusive of delivery, was ½d. per 4-lb. loaf lower.

(c) Including 1,062 persons relieved by means of works devised for the relief of distress.

NOTE.—The average prices of Oatmeal, Potatoes, and Beef given in the above Table have been kindly supplied by the Department of Agriculture and Technical Instruction for Ireland; and the number of persons receiving In-door and Out-door Relief by the Local Government Board.

METEOROLOGY.*

[Prepared at the Meteorological Office under the Direction of Sir Napier Shaw, F.R.S.]

JANUARY.

Low temperatures and winds from the North and East were very generally experienced until about the 18th, the second half of the month being characterised by southerly winds and a rapid increase in warmth.

Temperature.—As a rule the low temperatures of the first part of the month

were balanced by the high temperatures during the second part so that the mean for the month differed but little from the normal. In the North the deficiency was 0.1a and in the South 0.2a. The highest reading recorded was 287a at Dublin (Phoenix Park) on the 27th and at Dublin (Trin. Coll.) and Ranelagh on the 28th; the lowest being 261a at Belfast and Lisburn on the 14th.

Temperature
Scales.

* Furnished by the Director of the Meteorological Office. For further information the reader is referred to the Monthly Weather Report (price 6d., post free 7d.) and other publications of the Meteorological Office. Maps illustrating the distribution of rainfall, pressure, temperature and sunshine are given in the Monthly Weather Report. The normal values for each month, mostly based on 35 years' observations, are shown by tables and maps in "Monthly Normals of Temperature, Rainfall and Sunshine." (M.O. 214a, IV., 1915, Price 2s. 6d.)

Precipitation.—In the North the rainfall was 3 mm. below the normal and in the South 10 mm. above it. At Killarney on the 25th there was a heavy downpour of 37 mm., and 36 mm. fell at Lisburn on the 18th. The total fall for the month at Killarney was 242 mm., shewing an excess of 92 mm. above normal, whereas at Dublin (Trin. Coll.) the total fall was only 38 mm. and there was a deficiency of 17 mm.

Sunshine.—Sunshine was below the normal, the daily mean in the North being 0·94 hour (- 0·45 hour), and in the South 1·27 hour (- 0·39 hour).

FEBRUARY.

Throughout the month there were frequent and heavy rains, there being as many as twenty-six rain-days at Blacksod Point, Killarney, and Markree Castle, and twenty-five at Dunfanaghy, Clongowes Wood, and Cahirciveen. The mean temperature for the month was, however, above the normal, and only during the last few days were there any severe frosts, so that, as a whole, the month was more favourable for agricultural work than its predecessor.

Temperature.—There was an excess of warmth in the North of 2·2a and in the South of 2·5a, the highest reading recorded being 28·7a at Waterford on the 23rd and at Killarney on the 24th, and the lowest, 26·9a, at Markree Castle on the 17th. The following notes supplied by observers illustrate the general character of the month:—*Carriagoran, Co. Clare*—The weather throughout the month has been of a most gloomy character, with rain nearly every day, but only during the last week was there any frost. *Dublin (City)*—A very mild frostless month, with frequent though not very heavy rainfall. The mean temperature was 2·9a above the normal, thus establishing with February, 1903, a record for mildness in the second month of the year.

Precipitation.—The rainfall was in excess of the normal, the monthly total in the North being 110 mm. (+33 mm.) and in the South 118 mm. (+33 mm.). At Markree Castle and Killarney there were only two dry days, several other places having only four.

Sunshine.—Sunshine was below the normal, the daily mean in the North being 1·38 hour (- 0·85 hour) and in the South 1·51 hour (- 1·02 hour).

MARCH.

As a whole the month was fine and dry, the first few days being cold. It was then warm from about the 18th to the 24th, and finally unsettled and rainy. The observer at Fethard, Waterford, reports that it was the first dry March in that locality for years.

Temperature.—In the North there was an excess of warmth of 0·5a and in the South an excess of 0·7a. The warmest day was 29·5a at Killarney on the 24th and the coldest, 26·7a, Seskin, Carrick-on-Suir, on the 3rd, and at Limerick on the 2nd and 4th.

Precipitation.—Rainfall was below the normal, there being a shortage of 36mm. in the North and 15 mm. in the South. At Ballinacurra, Cork Harbour, on the 6th, there was a downpour of 38 mm., and one of 28 mm. at Hurdlestown, Co. Clare, on the 29th, the latter being nearly half the total rainfall for the month.

Sunshine.—The mean daily sunshine was 4·07 hour in the North and 4·56 hour in the South, the excess in both districts being 0·72 hour.

THE QUARTER.

The temperature of the quarter was above the normal by 0·9a in the North and 1·0a in the South. Rainfall was more variable, the North having a small deficiency of 3 mm., the South, on the other hand, having an excess of 28 mm. The mean daily amount of sunshine in the North was 2·1 hour, or a shortage of 0·3 hour, the South having 2·5 hour, representing a shortage of 0·2 hour.

TABLE VIII.—Showing the MEAN WEEKLY VALUES and the difference from their NORMAL VALUES of the meteorological elements at the Phoenix Park, Dublin,* for the thirteen weeks ended March 30th, 1918.

NOTE.—This table has been constructed for the years 1844 to 1846.—By taking the English average birth-rate of 1 in 31, and death-rate of 1 in 45, and deducting the annual emigration from Ireland according to the returns received from the Emigration Commissioners in England.

1847 to 1851.—The English birth-rate, as above, was used, deducting the number of deaths and the number of emigrants in each year, as given in the Irish Census Reports of 1851; an allowance, proportioned to the number of recorded deaths and the number of emigrants being made in each year for the excess of the number thus arrived at for 1851 over the actual population according to the Census of that year.

1852 to 1871.—The English birth and death-rates, as above, were used, deducting the number of emigrants, according to the returns obtained by the Registrar-General for Ireland, and allowing for excess over Census numbers for 1861 and 1871, as explained for the last period.

1872–1914.—By adding the Births registered in each year to the estimated population for the previous year, deducting the deaths and emigration, and adjusting the results for the years 1872–81, 1882–91, 1892–1901, and 1902–1911, to allow for the discrepancy between the number thus arrived at for 1881, 1891, 1901, and 1911 respectively, and the population as shown by the Census in each of these years.

1915–1918.—The estimated population for 1915 has been computed as in 1914, with some additional adjustments with regard to the movements of the military. The population in 1915 has been adopted provisionally for 1916, 1917 and 1918.

ABSTRACTS I., II., III., IV.

MARRIAGES Registered during the Quarter ending 31st December. 1917, in PROVINCES, COUNTIES, and SUPERINTENDENT REGISTRARS' DISTRICTS (or POOR LAW UNIONS) of IRELAND; **BIRTHS AND DEATHS** Registered during the Quarter ending 31st March, 1918; Deaths from ENTERIC FEVER, TYPHUS, SMALL-POX, MEASLES, SCARLET FEVER, WHOOPING-COUGH, DIPHTHERIA, DYSENTERY, TUBERCULOUS DISEASE, CANCER, DIARRHŒA AND ENTERITIS OF CHILDREN under 2 years, DIARRHŒA OF PERSONS aged 2 years and upwards; also VIOLENT DEATHS,* INQUEST CASES, DEATHS IN PUBLIC INSTITUTIONS, and NUMBER OF UNCERTIFIED DEATHS Registered during the Quarter ending 31st March, 1918, in the PROVINCES, COUNTIES, SUPERINTENDENT REGISTRARS' DISTRICTS, and REGISTRARS' DISTRICTS OF IRELAND; with a Return of **VACCINATIONS** for that Quarter.

ABSTRACT I.—PROVINCES AND COUNTIES.

* The Registrars' Districts (829 in number) are Sub-divisions of the Unions or Superintendent Registrars' Districts, and, with a few exceptions, are identical with the Dispensary Districts of the same names entered under the Medical Charities Act. The letter *W* denotes that the Registrar's District contains within its limits the Workhouse belonging to the Union or Superintendent Registrar's District.

+ The details concerning Births and Deaths in the above table for Districts marked thus (+) on pages 27 and 28 are extracted from the Weekly Returns made by the Registrars, and relate to the 13 weeks extending from 30th December, 1917, to 30th March, 1918. With the exception of 151 deaths of persons from localities outside the "Dublin Registration Area," the deaths in Public Institutions in these districts have been assigned to the respective districts comprised in the "Dublin Registration Area" from which the deceased were admitted.

* Exclusive of 9 deaths in the Rathdown Union Workhouse of persons admitted from Blackrock and Kingstown, to which Urban Districts they have been assigned.

ABSTRACT III.—REGISTRARS' DISTRICTS, ARRANGED BY COUNTIES AND SUPERINTENDENT REGISTRARS' DISTRICTS—continued.
I. PROVINCE OF LEINSTER—continued.

Marriages :—JANUARY, FEBRUARY, MARCH, 1918.

Births and Deaths.—APRIL, MAY, JUNE, 1918.

During the quarter ended 30th June last, there were registered in the 829 Registrars' Districts in Ireland 23,850 births—a number equal to an annual birth-rate of 22·0 in every 1,000 of the estimated population.* There were 18,271 deaths during the quarter, representing an annual rate of 16·9 per 1,000.

In the same period (according to the returns obtained by the Royal Irish Constabulary and the Dublin Metropolitan Police who acted as enumerators at the several Irish seaports), 231 persons emigrated, 198 of these going to Great Britain.

In England and Wales during the quarter the births registered numbered 170,239, and the deaths 118,550, the corresponding numbers for the second quarter of 1917 being 173,418 and 127,704.

The birth-rate in Ireland for the quarter is 1·8 below the average rate for the corresponding quarter of the ten years, 1908–1917, but 0·3 above the rate for the second quarter of 1917. The deaths are 819 below those registered in the corresponding quarter of 1917 ; the death-rate is 0·7 below the rate for that quarter, and 0·9 below the average for the second quarter of the ten years, 1908–1917.

In comparison with those for the corresponding quarter of 1917, the returns of pauperism furnished by the Local Government Board show a decrease of 2,697 in the average number of Workhouse inmates on Saturdays during the quarter, and a decrease of 909 in the average number of persons on out-door relief.

* See page 76.

The annual rate (5·4 per 1,000 of the population) represented by the marriages registered during the first quarter of 1918 is 0·6 below the average rate for the corresponding quarter of the preceding ten years.

TABLE I.—Showing for each PROVINCE and COUNTY in Ireland, the Annual Rate per 1,000 of the population,* represented by the number of MARRIAGES registered during the Quarter ended 31st March, 1918, and by the BIRTHS and DEATHS registered in the Quarter ended 30th June, 1918.

* Throughout this Report the rates for the total of Ireland are calculated on the estimated population in the middle of 1915; those for the county boroughs of Dublin and Belfast and Londonderry Co. and Co. Borough on the population estimated to the middle of the year 1917; and those for the provinces and remaining counties on the population according to the Census of 1911.

MARRIAGES.

The Marriages (5,857) registered in Ireland during the first quarter of 1918 are equivalent to an annual rate of 5·4 per 1,000 of the estimated population, being 0·1 below the rate for the corresponding quarter of 1917, and 0·6 below the average rate for the first quarter of the ten years, 1908-1917. Of the total number of marriages, 4,478 were registered under the provisions of the 26 and 27 Vic., cap. 90, and 1,379 under the 7 and 8 Vic., cap. 81; the former number being equal to an annual rate of 5·6 per 1,000 of the estimated Roman Catholic population, and the latter affording a rate of 4·9 per 1,000 of the members of all other religious persuasions. The rate under the former heading is 0·9 below, and that under the latter heading is 0·2 above the average rate for the corresponding quarter of the previous ten years.

It is to be borne in mind that in many parts of the country the greater portion of the annual number of Roman Catholic marriages is celebrated in the first quarter, while as regards other marriages the number in the first quarter is generally less than that for any of the other quarters of the year.

TABLE II.—Showing by QUARTERLY PERIODS the MARRIAGES registered in Ireland in each of the ten years, 1908–1917, and the average number for that period, also the number registered in the first quarter of 1918.

BIRTHS.

The number of births registered during the quarter ended 30th June last was 23,850—12,238 boys and 11,612 girls—being equal to an annual ratio of 1 in every 45.5 or 22.0 per 1,000 of the estimated population. The average number of births registered during the corresponding quarter of the ten years, 1908–17, was 25,967, equivalent to an annual rate of 23.8 per 1,000 of the estimated mean population of those years.

The respective birth-rates for the four provinces* last quarter are—Leinster, 21.8 per 1,000 of the population according to the Census of 1911; Munster, 21.3; Ulster, 22.7; and Connaught, 19.7.

DEATHS.

The number of deaths registered in Ireland during the quarter ended 30th June last was 18,271—9,046 males and 9,225 females—affording an annual ratio of 1 in every 59.3 or 16.9 per 1,000 of the estimated population; the average rate for the corresponding quarter of the ten years, 1908–17, was 17.8 per 1,000.

The death-rate in Leinster was 17.8 per 1,000 of the population according to the Census of 1911; in Munster, 15.0; in Ulster, 18.1; and in Connaught, 13.4.

* See note (*) on page 64.

TABLE III.—Showing by QUARTERLY PERIODS the number of BIRTHS and DEATHS registered in Ireland in each of the ten years 1908–1917, and the average number for that period; also the number registered during the first and second quarters of the year 1918:—

AGES.—Of the 18,271 deaths registered last quarter, 1,750, or 9.6 per cent., were of infants under one year of age; and 7,212, or 39.5 per cent., were of persons aged 65 years and upwards. The deaths of infants under one year old are equal to 73.4 per 1,000 of the births registered. In the Province of Leinster the number of deaths of infants under one year old equalled 10.8 per cent. of the total deaths registered therein; in Munster, 8.4 per cent.; in Ulster, 10.0 per cent.; and in Connaught, 7.5 per cent. The deaths of persons 65 years old and upwards registered during the quarter in Leinster are equal to 35.2 per cent.; in Munster to 42.2 per cent.; in Ulster, to 37.3 per cent.; and in Connaught to 52.6 per cent. of the total deaths registered in the province.

CAUSES OF DEATH.

As may be seen from the following Table the total number of deaths from the principal epidemic diseases during the quarter is 874, (equivalent to an annual rate of 0.81 per 1,000 of the population) and is 70 (or 0.07 per 1,000) above the average for the second quarter of the five years preceding.

TABLE IV.—Showing the number of deaths from the principal epidemic diseases returned by the Registrars as having been registered during the quarter ended 30th June, 1918, and in each of the eight quarters immediately preceding; with the averages for the second quarter of the five years, 1913–1917, and the corresponding annual rates per 1,000 of the population, represented by the deaths from these causes, during the periods above referred to.

Annual rate per 1,000 of the population.

ENTERIC FEVER.—Deaths from enteric fever, which numbered 57, 61 and 53, respectively, in the three preceding quarters, were 63 in number during the quarter ending 30th June. This number is 8 above the average for the second quarter of the five years, 1913-17.

Of the 63 deaths, 10 were registered in Lisburn union, all being deaths of residents of Belfast county borough occurring in Purdysburn Fever Hospital in the Registrar's district of Ballylesson; 4 deaths each occurred in the superintendent registrar's districts of Dublin, North and Dundalk; 3 deaths each in Armagh, Lurgan, Manorhamilton and Omagh unions, and 2 deaths each in the unions of Carlow, Cookstown, Cork, Letterkenny, Limerick and Monaghan.

TYPHUS.—The deaths under this heading, 10 in number, are below the average (13) for the corresponding quarter of the 5 years, 1913-17. In the September, December and March quarters immediately preceding that under notice the deaths from this cause numbered 8, 5 and 15, respectively. Of the 10 deaths recorded during last quarter, 3 occurred in Belmullet union and one each in the unions of Ballina, Ballymahon, Cahersiveen, Callan, Castleblayney, Glenties and Skull.

SMALL-POX.—No death from this cause was reported.

MEASLES.—Measles caused 218 deaths, the average number for the corresponding quarter of the 5 years, 1913-17, being 229, and the numbers in the three quarters preceding that under review 45, 137 and 222, respectively. The 218 deaths registered are equivalent to an annual rate of 0·20 per 1,000 of the estimated population. Of the total, 61 deaths belonged to Cork, 39 to Dublin, South, 9 to Dublin, North, 32 to Belfast, 8 occurred in Londonderry union, 6 in Listowel union and 4 deaths each in the unions of Ennistimon, Kinsale and Swineford.

SCARLET FEVER.—This disease caused 23 deaths, the numbers in the three quarters preceding being 34, 22 and 22, respectively, with an average of 68 for the second quarter of the 5 years, 1913-17. Of the deaths from this cause, 3 each occurred in the unions of Cavan and Dublin, North; 2 each in Banbridge, Dublin, South, Lisburn (both of which deaths appertained to Belfast county borough), and Monaghan unions, and one death each in the unions of Antrim, Ballymoney, Belfast, Cork, Dingle, Fermoy, Limerick, Lisnaskea and Omagh.

WHOOPIING-COUGH.—The mortality from whooping-cough again showed an increase, the number of deaths registered during the quarter ended 30th June last being 345 (equivalent to a rate of 0·32 per 1,000), the highest number recorded from this cause since the March quarter of 1912 when 353 deaths were registered. The average number of deaths from whooping-cough during the second quarter of the five years, 1913-17, was 181.

In Belfast union 154 deaths were registered, in Dublin, North 52, in Dublin, South 37, in Lurgan 15, in Westport 12, in Cork 11, in Ballina 10, in Newtownards 9, in Lisburn 7, in Coleraine 5, and in Swineford 4 deaths.

It will be observed that of the 345 deaths from whooping-cough for Ireland during the quarter 243, or 70 per cent. occurred in the three unions of Belfast, Dublin, North and Dublin, South.

DIPHTHERIA.—From this cause 47 deaths were registered, as compared with 56, 74 and 66 in the three preceding quarters, and an average of 58 for the second quarter of the five years, 1913-17. Of the total, 10 deaths occurred in Lisburn union, 7 of which were of residents of Belfast county borough, 5 in Dublin, North, 3 in Dublin, South, 4 in Kilrush and 2 deaths each in the unions of Boyle and Sligo.

DIARRHOEAL DISEASES.—In the 163 deaths under this heading are included 115 deaths of children under 2 years of age from diarrhoea and enteritis. The average number of deaths from diarrhoeal diseases for the second quarter of the five years, 1913-17, was 194.

TUBERCULOSIS.—The number of deaths, 2,783, returned by the registrars as having been due to various forms of tuberculous disease is above the average (2,713)

for the corresponding quarter of the preceding five years, and is equivalent to an annual rate of 2·57 per 1,000 of the estimated population. The annual rates represented by the deaths registered in the three quarters preceding that under notice were respectively, 1·91, 1·65 and 2·19 per 1,000.

CANCER.—Cancer caused 867 deaths, the numbers in the three preceding quarters being 808, 882 and 862, respectively. The 867 deaths registered for the quarter ending 30th June are equivalent to an annual rate of 0·80 per 1,000.

VIOLENCE.—To violence (accidental, homicidal and suicidal) 194 deaths were attributed.

INQUESTS.

There were 266 inquests reported to the Registrars during the quarter, this number being equal to one in every 69 of the total deaths registered.

In Leinster there was one inquest to every 62 deaths registered, in Munster one to 84, in Ulster one to 58, and in Connaught one to 157.

DEATHS IN PUBLIC INSTITUTIONS.

Of the 18,271 deaths registered, 4,029, or 22·1 per cent., occurred in public institutions. In Leinster the percentage was 31·4, in Munster 26·4, in Ulster 16·1, and in Connaught 11·0.

UNCERTIFIED DEATHS.

According to the returns, 3,906 of the 18,271 deaths registered during the quarter were uncertified, being 21 per cent. of the total. In Leinster the percentage was 15, in Munster 24, in Ulster 16, and in Connaught the uncertified deaths were 52 per cent. of the total deaths registered in the province.

URBAN DISTRICTS.

THE QUARTER.

Table V. gives separate statistics for the Urban Districts. It will be observed that the birth-rate last quarter for these districts, which contain nearly one-third of the total population of the country, was 24·1 per 1,000 of the population, the rates for the three preceding quarters being 21·9, 19·2, and 21·7, respectively, and the average rate for the 5 years, 1913-17, being 26·1. In the remainder of the country the birth rate was 20·6 per 1,000, as against 18·0, 17·1, and 18·1, respectively, in the three preceding quarters, and an average rate for the corresponding quarter of the previous five years of 21·5.

The annual rate represented by the deaths from all causes for the Urban Districts during the quarter was 18·8 per 1,000, as compared with 13·1, 14·2, and 18·9, respectively, for the preceding three quarters and an average of 18·7 for the second quarter of the five years, 1913-17. In the remainder of the country the death-rate for the quarter was 15·6, the respective rates for the three preceding quarters being 12·1, 13·2, and 15·7, per 1,000, the average rate for the five years, 1913-17, being 17·2.

For the principal epidemic diseases* in the several Urban Districts the annual rate represented by the deaths from them during the quarter under review was 1·6 per 1,000 of the population. In the remainder of the country it was 0·4.

* See note (†) on page 69.

TABLE V.—BIRTHS and DEATHS registered during the SECOND QUARTER of the year 1918, in the DUBLIN REGISTRATION AREA, and in each of the PROVINCIAL URBAN DISTRICTS in IRELAND (exclusive of Deaths in Public Institutions of Persons admitted from other localities), with the number of deaths from each of the PRINCIPAL EPIDEMIC DISEASES †, from TUBERCULOUS DISEASE, and from CANCER, with the number of Uncertified Deaths.

NOTE.—The Dublin Registration Area* consists of the City of Dublin and the Urban Districts of Rathmines and Rathgar, Pembroke, Blackrock, and Kingstown. The details for it and for each of the eighteen Urban Districts marked thus (*) in the following Table have been compiled from the Weekly Returns furnished by the Registrars, and relate to the thirteen weeks ending Saturday, 29th June, 1918.

† See note (†) on page 69.

(a) Including 10 deaths from enteric fever, one from measles, 2 from scarlet fever, 7 from diphtheria, 6 from tuberculous disease, and one from cancer admitted from the City of Belfast to institutions situated in the Registrar's District of Ballylesson, in the Union of Lisburn, and the deaths of 2 persons from cerebro-spinal meningitis, registered in Belfast.

VACCINATION.

According to the Returns of Primary Vaccinations received for the second quarter of the year 1918, there were 20,029 persons successfully vaccinated.

EMIGRATION.

The Returns obtained by the Royal Irish Constabulary and the Dublin Metropolitan Police, who acted as enumerators at the several Irish seaports, show that the number of emigrants who left Ireland during the quarter ended 30th June was 231 (96 males and 135 females), being 342 less than in the corresponding quarter of the year 1917, and 9,430 below the average number for the first quarter of the ten years 1908–1917.

TABLE VI.—EMIGRATION from IRELAND during the months of April, May, and June, in 1917 and 1918:—

| MONTHS. | NUMBER OF EMIGRANTS. | | | | | | | | | | | |
|--------------|----------------------|-------|------------|------------|----------|-------|------------|------------|--------|-------|------------|------------|
| | Males. | | | | Females. | | | | Total. | | | |

| TOTAL, . . . | 242 | 96 | . | 146 | 331 | 135 | . | 196 | 573 | 231* | . | 342 |

*Including 198 emigrants to Great Britain. Of these 63 left in the month of April, 76 in May, and 59 in June.

PRICES AND PAUPERISM.

The average price of the 4-lb. loaf (delivered) for the quarter was 9d. In the second quarter of the year 1917 the average price was 11³/₄d., and in the corresponding quarter of 1908 it was 6d.

The average price of oatmeal (1st quality) in Dublin for the quarter was 36s. 0d. per cwt. For the second quarter of the year 1917 the average price was 46s. 3d., and for the second quarter of 1908 the average price was 15s. 0d. per cwt.

The average price per cwt. of potatoes at the Dublin Potato Market for the quarter was 4s. 5¹/₂d. In the second quarter of 1917 the average price was 12s. 0¹/₂d., and the price for the corresponding quarter of 1908 was 4s. 5d.

The average price per cwt. of beef at the Dublin Cattle Market was 148s. 0d., as against 134s. 9d. for the second quarter of 1917, the price for the second quarter of 1908 being 61s. 0d.

The price (including cartage) of Whitehaven coal in the City of Dublin was 50s. per ton nett.

The highest price of Consols at the Dublin Stock Exchange for the quarter was £56¹/₂, and the lowest £54.

The minimum annual rate of discount charged on Irish Bills at the Bank of Ireland during the quarter was 5 per cent.

The average weekly number of persons receiving out-door relief during the quarter was 34,330, being 999 below the average for the second quarter of 1917.

Of the persons receiving in-door relief during the second quarter of 1918, an average number of 1,493 in each week was located in asylums for the blind and the deaf and dumb, and in extern hospitals; in the corresponding quarter of 1917 the average weekly number was 1,654.

NOTE.—The prices of Consols at the Dublin Stock Exchange have been kindly furnished by the Secretary:

TABLE VII.—Showing the AVERAGE PRICES in DUBLIN of BREAD, OATMEAL, POTATOES, and BEEF, during the quarter (13 weeks) ended 29th June, 1918, with the average for the second quarter of the previous ten years, and the NUMBER of PERSONS in IRELAND receiving IN-DOOR AND OUT-DOOR RELIEF.

(a) Messrs. Boland's, Limited.

(b) Messrs. Johnston, Mooney, and O'Brien's (Limited) 4-lb. loaf delivered; the price in Messrs. Johnston, Mooney and O'Brien's shops, exclusive of delivery, was ½d. per 4-lb. loaf lower.

(c) Including 1,062 persons relieved by means of works devised for the relief of distress.

NOTE.—The average prices of Oatmeal, Potatoes, and Beef given in the above Table have been kindly supplied by the Department of Agriculture and Technical Instruction for Ireland; and the number of persons receiving In-door and Out-door Relief by the Local Government Board.

METEOROLOGY.*

[Prepared at the Meteorological Office under the Direction of Lieut.-Col. H. G. Lyons,
R.E., F.R.S.]

APRIL.

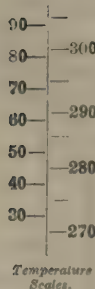

Although the temperature was in close agreement with the normal, winds which blew very persistently from points between North and East gave the month a chilly character. Both in the North and South, however, the sunshine was above the normal, but the rainfall was deficient. At Fethard, Co. Waterford, during the three weeks ended on the 30th the total rainfall was only 3 mm., and there was an unusually large amount of sunshine; while at Hurdlestown, Co. Clare, the rain fall during the month was only 30 mm., or just half the normal. In Dublin (City) there was heavy rain on the 5th, 8th, and 9th, but for the rest of the month the precipitation was insignificant.

* Furnished by the Director of the Meteorological Office. For further information the reader is referred to the Monthly Weather Report (price 6d., post free 7d.) and other publications of the Meteorological Office. Maps illustrating the distribution of rainfall, pressure, temperature and sunshine are given in the Monthly Weather Report. The normal values for each month, mostly based on 35 years' observations, are shown by tables and maps in "Monthly Normals of Temperature, Rainfall and Sunshine." (M.O. 214a, IV., 1915, Price 2s. 6d.)

*Temperature.**—Temperature both in the North and in the South was 0·1a below the normal, the highest of the individual readings being 296a at Killarney on the 26th and 27th, and the lowest 270a at Dublin (Phoenix Park) and Markree Castle on the 3rd and 15th.

Precipitation.—In the North the total rainfall was 29 mm., and in the South 38 mm., the departures from normal being—32 mm. and 28 mm. respectively.

Sunshine.—The mean daily amount of sunshine varied from 6·45 hours in the North to 6·11 hours in the South, the former district getting an excess of 1·56 hours and the latter 0·73 hour.

MAY.

As a whole the month was a favourable one, with a temperature ahead of the normal, abundant sunshine, and a rainfall but slightly deficient. Ground frosts, moreover, were rare, violent and cold winds being also infrequent.

Temperature.—Temperature was above the normal, the northern half of the country having an excess of 1·4a, and the southern 1·7a. At Killarney the excess was as much as 2·3a. Of the individual readings the highest was 300a at Killarney on the 31st, and the lowest 274a at Markree Castle on the 5th.

Precipitation.—In the North the aggregate rainfall was 58 mm., and in the South 61 mm., there being a deficiency of 5 mm. in the former district and 4 mm. in the latter. At Lisburn on the 23rd there was a downpour of 48mm., the total for the month being 140 mm. compared with only 40 mm. at Dunfanaghy, Co. Donegal.

Sunshine.—The mean daily amount of sunshine varied from 5·07 hours in the northern district to 6·51 hours in the southern, there being a deficiency of 0·81 hour in the North and a slight excess of 0·04 hour in the South.

JUNE.

Only at the beginning and end of the month was there any really warm weather, the intervening period, especially about the 14th to 18th, being cool and unseasonable. Winds from the North-West predominated and were often very violent, a gale on the 9th causing much damage to crops, trees, and foliage generally. Moreover, although the rainfall was deficient the number of rain-days was excessive, Dunfanaghy, Co. Donegal, having 22, and Blacksod Point and Markree Castle 18. In Dublin (City) although the rainfall amounted to only 23 mm., it was distributed over as many as 13 days.

Temperature.—Sunny days compensated for cold nights, so that the month's mean temperature differed but little from the normal, the northern half of the country being 0·1a below it and the southern half 0·1 above. The highest reading recorded was 302a at Killarney on the 1st and 2nd, and the lowest 274a at Clongowes Wood College on the 16th.

Sunshine.—In the North the mean daily amount of sunshine was 6·18 hours and in the South 6·88 hours, the former district having a mean daily excess of 0·64 hour, and the latter 0·89 hour. During the first three days of the month as many as 44 sunny hours were recorded at Seskin (Carrick-on-Suir), and 42 at Dublin (Phoenix Park).

THE QUARTER.

The temperature of the quarter was a little above normal, the northern half of the country having an excess of 0·3a and the southern 0·5a. On the other hand the rainfall was very deficient, the North having a shortage of 63 mm. and the South 53 mm. Sunshine was slightly ahead of the normal, the mean daily amount in the North being 5·9 hours and in the South 6·5 hours, the excess in the former district being 0·4 hour and in the latter 0·6 hour.

* Temperature is given on the Absolute Centigrade Scale. To the nearest degree 255a=0°F., 273a=32°F., 280a=45°F., 300a=81°F., and 310a=99°F.

TABLE VIII.—Showing the MEAN WEEKLY VALUES and the difference from their NORMAL VALUES of the meteorological elements at the Phoenix Park, Dublin,* for the thirteen weeks ended June 29th, 1918.

| 1869 | 5,449,094 | 2,659,713 | 2,789,381 | 1895 | 4,559,936 | 2,247,303 | 2,312,633 | | | | |

NOTE.—This table has been constructed for the years 1844 to 1846.—By taking the English average birth-rate of 1 in 31, and death-rate of 1 in 45, and deducting the annual emigration from Ireland according to the returns received from the Emigration Commissioners in England.

1847 to 1851.—The English birth-rate, as above, was used, deducting the number of deaths and the number of emigrants in each year, as given in the Irish Census Reports of 1851; an allowance, proportioned to the number of recorded deaths and the number of emigrants being made in each year for the excess of the number thus arrived at for 1851 over the actual population according to the Census of that year.

1852 to 1871.—The English birth and death-rates, as above, were used, deducting the number of emigrants, according to the returns obtained by the Registrar-General for Ireland, and allowing for excess over Census numbers for 1861 and 1871, as explained for the last period.

1872–1914.—By adding the Births registered in each year to the estimated population for the previous year, deducting the deaths and emigration, and adjusting the results for the years 1872–81, 1882–91, 1892–1901, and 1902–1911, to allow for the discrepancy between the number thus arrived at for 1881, 1891, 1901, and 1911 respectively, and the population as shown by the Census in each of these years.

1915–1918.—The estimated population for 1915 has been computed as in 1914, with some additional adjustments with regard to the movements of the military. The population in 1915 has been adopted provisionally for 1916, 1917 and 1918.

ABSTRACTS I., II., III., IV.

MARRIAGES Registered during the Quarter ending 31st March, 1918, in PROVINCES, COUNTIES, and SUPERINTENDENT REGISTRARS' DISTRICTS (or POOR LAW UNIONS) of IRELAND; **BIRTHS AND DEATHS** Registered during the Quarter ending 30th June, 1918; Deaths from ENTERIC FEVER, TYPHUS, SMALL-POX, MEASLES, SCARLET FEVER, WHOOPING-COUGH, DIPHTHERIA, DYSENTERY, TUBERCULOUS DISEASE, CANCER, DIARRHŒA AND ENTERITIS OF CHILDREN under 2 years, DIARRHŒA OF PERSONS aged 2 years and upwards; also VIOLENT DEATHS,* INQUEST CASES, DEATHS IN PUBLIC INSTITUTIONS, and NUMBER OF UNCERTIFIED DEATHS Registered during the Quarter ending 30th June, 1918, in the PROVINCES, COUNTIES, SUPERINTENDENT REGISTRARS' DISTRICTS, and REGISTRARS' DISTRICTS of IRELAND; with a Return of **VACCINATIONS** for that Quarter.

ABSTRACT I.—PROVINCES AND COUNTIES.

| PROVINCES and COUNTIES. | Area in Statute Acres. | Popula- tion in 1911 | Marriages. | | Births. | | Deaths. | | The Deaths registered during the Quarter are stated by the Registrars to include | | | | | | | | | | | | | | Inquest Cases. | Deaths in Public In- stitutions. | Number of Uncertified Deaths. | Number of successful primary Vaccinations in the Quarter ending 30th June, 1918. | | |

37, PETER STREET, MANCHESTER ; 1, ST. ANDREW'S CRESCENT, CARDIFF ;

23, FORTH STREET, EDINBURGH.

Price One Shilling.

Marriages :—APRIL, MAY, JUNE, 1918.

Births and Deaths.—JULY, AUGUST, SEPTEMBER, 1918.

During the quarter ended 30th September last, there were registered in the 829 Registrars' Districts in Ireland 22,591 births—a number equal to an annual birth-rate of 20·8 in every 1,000 of the estimated population.* There were 15,405 deaths during the quarter, representing an annual rate of 14·2 per 1,000.

In the same period (according to the returns obtained by the Royal Irish Constabulary and the Dublin Metropolitan Police who acted as enumerators at the several Irish seaports), 204 persons emigrated, 190 of these going to Great Britain.

In England and Wales last quarter the births registered numbered 168,451, and the deaths 114,218, the corresponding numbers for the third quarter of 1917 being 162,526 and 94,591.

The birth-rate in Ireland for the quarter is 1·3 below the average rate for the corresponding quarter of the ten years, 1908–1917, but 1·4 above the rate for the third quarter of 1917. The deaths are 1,847 above those registered in the corresponding quarter of 1917 ; the death-rate is 1·7 above the rate for that quarter, and 0·3 above the average for the third quarter of the ten years, 1908–1917.

In comparison with those for the corresponding quarter of 1917, the returns of pauperism furnished by the Local Government Board show a decrease of 2,352 in the average number of Workhouse inmates on Saturdays during the quarter, and a decrease of 823 in the average number of persons on out-door relief.

* See page 136.

The annual rate (5·2 per 1,000 of the population) represented by the marriages registered during the second quarter of 1918 is 0·3 above the average rate for the corresponding quarter of the preceding ten years.

TABLE I.—Showing for each PROVINCE and COUNTY in Ireland, the Annual Rate per 1,000 of the population,* represented by the number of MARRIAGES registered during the Quarter ended 30th June, 1918, and by the BIRTHS and DEATHS registered in the Quarter ended 30th September, 1918.

* Throughout this Report the rates for the total of Ireland are calculated on the estimated population in the middle of 1915; those for the county boroughs of Dublin and Belfast and Londonderry Co. and Co. Borough on the population estimated to the middle of the year 1917; and those for the provinces and remaining counties on the population according to the Census of 1911.

MARRIAGES.

The Marriages (5,685) registered in Ireland during the second quarter of 1918 are equivalent to an annual rate of 5·2 per 1,000 of the estimated population, being 0·7 above the rate for the corresponding quarter of 1917, and 0·3 above the average rate for the second quarter of the ten years, 1908-1917. Of the total number of marriages, 3,999 were registered under the provisions of the 26 and 27 Vic., cap. 90, and 1,686 under the 7 and 8 Vic., cap. 81; the former number being equal to an annual rate of 5·0 per 1,000 of the estimated Roman Catholic population, and the latter affording a rate of 6·0 per 1,000 of the members of all other religious persuasions. The rate under the former heading is 0·4 above, and that under the latter heading is 0·2 above the average rate for the corresponding quarter of the previous ten years.

It is to be borne in mind that in many parts of the country the greater portion of the annual number of Roman Catholic marriages is celebrated in the first quarter, while as regards other marriages the number in the first quarter is generally less than that for any of the other quarters of the year.

TABLE II.—Showing by QUARTERLY PERIODS the MARRIAGES registered in Ireland in each of the ten years, 1908–1917, the average number for that period, also the number registered in the first and second quarters of 1918.

BIRTHS.

The number of births registered during the quarter ended 30th September last was 22,591—11,556 boys and 11,035 girls—being equal to an annual ratio of 1 in every 48.0 or 20.8 per 1,000 of the estimated population. The average number of births registered during the corresponding quarter of the ten years, 1908–17, was 24,174, equivalent to an annual rate of 22.1 per 1,000 of the estimated mean population of those years.

The respective birth-rates for the four provinces* last quarter are—Leinster, 21.6 per 1,000 of the population according to the Census of 1911; Munster, 19.9; Ulster, 20.9; and Connaught, 18.8.

DEATHS.

The number of deaths registered in Ireland during the quarter ended 30th September last was 15,405—7,601 males and 7,804 females—affording an annual ratio of 1 in every 70.4 or 14.2 per 1,000 of the estimated population; the average rate for the corresponding quarter of the ten years, 1908–17, was 13.9 per 1,000.

The death-rate in Leinster was 15.3 per 1,000 of the population according to the Census of 1911; in Munster, 12.9; in Ulster, 15.2; and in Connaught, 10.8.

* See note (*) on page 126.

TABLE III.—Showing by QUARTERLY PERIODS the number of BIRTHS and DEATHS registered in Ireland in each of the ten years 1908–1917, and the average number for that period; also the number registered during the first, second and third quarters of the year 1918 :—

AGES.—Of the 15,405 deaths registered last quarter, 1,757, or 11.4 per cent., were of infants under one year of age; and 5,264, or 34.2 per cent., were of persons aged 65 years and upwards. The deaths of infants under one year old are equal to 77.7 per 1,000 of the births registered. In the Province of Leinster the number of deaths of infants under one year old equalled 12.6 per cent. of the total deaths registered therein; in Munster, 11.4 per cent.; in Ulster, 11.7 per cent.; and in Connaught, 7.2 per cent. The deaths of persons 65 years old and upwards registered during the quarter in Leinster are equal to 29.4 per cent.; in Munster to 35.6 per cent.; in Ulster, to 32.5 per cent.; and in Connaught to 50.5 per cent. of the total deaths registered in the province.

CAUSES OF DEATH.

As may be seen from the following Table the total number of deaths from the principal epidemic diseases is 900, and is equivalent to an annual rate of 0.83 per 1,000 living, being 200 (or 0.18 per 1,000) under the average for the third quarter of the five years preceding.

TABLE IV.—Showing the number of deaths from the principal epidemic diseases returned by the Registrars as having been registered during the quarter ended 30th September, 1918, and in each of the eight quarters immediately preceding; with the averages for the third quarter of the five years, 1913–1917, and the corresponding annual rates per 1,000 of the population, represented by the deaths from these causes, during the periods above referred to.

| PERIOD | Total Deaths registered. | Deaths from Principal Epidemic Diseases. | | | | | | | | | Total | Annual rate per 1,000 of the population. |

ENTERIC FEVER.—The number of deaths from this cause during the past quarter was 71, as compared with 61, 53 and 63 for the three preceding quarters and an average of 59 for the third quarter of the five years, 1913-17. Of the 71 deaths, 11 occurred in Lisburn union (8 appertaining to Belfast county borough); 4 deaths each were registered in the unions, or superintendent registrar's districts of Cork, Dublin South, Lisnaskea, and Omagh; 3 each in Carlow, Limerick and Listowel; and 2 deaths each in Ballymena, Bantry, Boyle, Clonakilty, Dublin North, Killarney, Sligo and Tuam.

TYPHUS.—Eight deaths from typhus were registered, being the same as the average for the third quarter of the five years preceding, the deaths for the three preceding quarters numbering 5, 15 and 10, respectively.

Of the deaths, 3 occurred in Clifden union, 2 in Omagh and one each in Boyle, Galway and Kanturk.

SMALL-POX.—There was no mortality from this cause.

MEASLES.—This disease accounted for 107 deaths, equivalent to an annual rate of 0·10 per 1,000 of the population. In the three preceding quarters the deaths numbered 137, 222 and 218, respectively, the average for the third quarter of the five years, 1913-17, being 111.

There were 21 deaths in Londonderry Union; in Castletown and Cork 7 deaths each were registered; in Dublin North, 6; in Dublin South, 4; in Newcastle, 6; 5 each in Belfast and Tralee; and 3 each in Inishowen, Listowel and Swinford unions.

SCARLET FEVER.—To this cause 13 deaths were attributed, being 53 under the average (66) for the third quarter of the preceding five years and under the numbers for the fourth quarter of 1917 and for the first and second quarters of 1918, viz., 22, 22 and 23, respectively.

WHOOPIING-COUGH.—There were 190 deaths from this cause, being equivalent to an annual rate of 0·18 per 1,000 of the estimated population, as compared with 85, 302 and 345 in the three preceding quarters and an average of 142 for the third quarter of the five years, 1913-17.

In Belfast superintendent registrar's district 32 deaths were recorded; in Dublin South, 24; in Dublin North, 9; in Cork and Lurgan, 13 each.

DIPHTHERIA.—The fatal cases of diphtheria numbered 38, as against 74, 66 and 47 in the three quarters preceding and an average of 57 for the third quarter of the five years, 1913-17.

Of the 38 deaths, 8 (4 belonging to Belfast county borough) were registered in the union or superintendent registrar's district of Lisburn, 3 each in Ballymena, Dublin South, Limerick and Tralee, and 2 each in Bantry, Boyle, Dublin North and Monaghan.

DIARRHOEAL DISEASES.—There were 472 deaths returned under this heading, including 419 deaths of children under 2 years of age from diarrhoea and enteritis. The 472 deaths are 181 under the average (653) for the third quarter of the five years, 1913-17.

TUBERCULOSIS.—The number of deaths from all forms of tuberculous disease for the past quarter, as returned by the Registrars, was 2,170, being equivalent to an annual rate of 2·00 per 1,000 of the estimated population, as compared with rates of 1·65, 2·19 and 2·57, respectively for the three quarters preceding.

CANCER.—This disease caused 861 deaths, affording an annual rate of 0·79 per 1,000 of the population. During the fourth quarter of 1917 the deaths from cancer numbered 882; and in the first and second quarters of 1918, the numbers were 862 and 867, respectively.

VIOLENCE.—Deaths returned under this heading, which includes accidental, homicidal and suicidal cases, during the quarter numbered 216.

INQUESTS.

There were 267 inquests reported to the Registrars during the quarter, this number being equal to one in every 58 of the total deaths registered.

In Leinster there was one inquest to every 57 deaths registered, in Munster one to 65, in Ulster one to 49, and in Connaught one to 110.

DEATHS IN PUBLIC INSTITUTIONS.

Of the 15,405 deaths registered, 3,417, or 22·2 per cent., occurred in public institutions. In Leinster the percentage was 29·9, in Munster 26·9, in Ulster 16·2, and in Connaught 13·5.

UNCERTIFIED DEATHS.

According to the returns, 2,833 of the 15,405 deaths registered during the quarter were uncertified, being 18 per cent. of the total. In Leinster the percentage was 12, in Munster 22, in Ulster 14, and in Connaught the uncertified deaths were 48 per cent. of the total deaths registered in the province.

URBAN DISTRICTS.

THE QUARTER.

Table V. gives separate statistics for the Urban Districts. It will be observed that the birth-rate last quarter for these districts, which contain nearly one-third of the total population of the country, was 23·6 per 1,000 of the population, the rates for the three preceding quarters being 19·2, 21·7, and 24·1, respectively, and the average rate for the 5 years, 1913-17, being 24·2. In the remainder of the country the birth rate was 19·1 per 1,000, as against 17·1, 18·1, and 20·6, respectively, in the three preceding quarters, and an average rate for the corresponding quarter of the previous five years of 19·6.

The annual rate represented by the deaths from all causes for the Urban Districts during the quarter was 17·7 per 1,000, as compared with 14·2, 18·9, and 18·8, respectively, for the last three quarters and an average of 15·3 for the third quarter of the five years, 1913-17. In the remainder of the country the death-rate for the quarter was 12·3, the respective rates for the three preceding quarters being 13·2, 15·7, and 15·6, per 1,000, the average rate for the five years, 1913-17, being 12·7.

For the principal epidemic diseases* in the several Urban Districts the annual rate represented by the deaths from them during the quarter under review was 1·6 per 1,000 of the population. In the remainder of the country it was 0·5.

* See note (†) on page 131.

URBAN DISTRICTS.

TABLE V.—BIRTHS and DEATHS registered during the THIRD QUARTER of the year 1918, in the DUBLIN REGISTRATION AREA, and in each of the PROVINCIAL URBAN DISTRICTS in IRELAND (exclusive of Deaths in Public Institutions of Persons admitted from other localities), with the number of deaths from each of the PRINCIPAL EPIDEMIC DISEASES †, from TUBERCULOUS DISEASE, and from CANCER, with the number of Uncertified Deaths.

NOTE.—The Dublin Registration Area,† consists of the City of Dublin and the Urban Districts of Rathmines and Rathgar, Pembroke, Blackrock, and Kingstown. The details for it and for each of the eighteen Urban Districts marked thus (*) in the following Table have been compiled from the Weekly Returns furnished by the Registrars, and relate to the thirteen weeks ending Saturday, 28th September, 1918.

† See note (†) on page 131.

(a) Including 8 deaths from enteric fever, 4 from diphtheria, 12 from tuberculous disease, and one from cerebro-spinal fever admitted from the City of Belfast to institutions situated in the Registrar's District of Ballyleson, in the Union of Lisburn.

VACCINATION.

According to the Returns of Primary Vaccinations received for the third quarter of the year 1918, there were 17,096 persons successfully vaccinated.

EMIGRATION.

The Returns obtained by the Royal Irish Constabulary and the Dublin Metropolitan Police, who acted as enumerators at the several Irish seaports, show that the number of emigrants who left Ireland during the quarter ended 30th September last was 204 (82 males and 122 females), being 375 less than in the corresponding quarter of the year 1917, and 5,281 below the average number for the third quarter of the ten years 1908–1917.

TABLE VI.—EMIGRATION from IRELAND during the months of July, August, and September, in 1917 and 1918 :—

| MONTHS. | NUMBER OF EMIGRANTS. | | | | | | | | | | | |
|---------------|----------------------|-------|------------|------------|----------|-------|------------|------------|--------|-------|------------|------------|
| | Males. | | | | Females. | | | | Total. | | | |
| | 1917. | 1918. | In-crease. | De-crease. | 1917. | 1918. | In-crease. | De-crease. | 1917. | 1918. | In-crease. | De-crease. |
| July, .. | 66 | 29 | . | 37 | 121 | 34 | . | 87 | 187 | 63 | . | 124 |

| September, .. | 68 | 27 | . | 41 | 113 | 31 | . | 82 | 181 | 58 | . | 123 |
| TOTAL, .. | 226 | 82 | . | 144 | 353 | 122 | . | 231 | 579 | 204* | . | 375 |

*Including 190 emigrants to Great Britain. Of these 59 left in the month of July, 74 in August, and 57 in September.

PRICES AND PAUPERISM.

The average price of Messrs. Boland's (Limited) 4-lb. loaf for last quarter from 1st July to 31st August was 9d., and from 2nd to 28th September 9½d., which was also the average price of Messrs. Johnson, Mooney, and O'Brien's (Limited), bread, delivered. In the third quarter of the year 1917 the average price for both firms was 11½d., and in the corresponding quarter of 1908 the average price was 6d.

The average price of oatmeal (1st quality) in Dublin for the quarter was 36s. 0d. per cwt. For the third quarter of the year 1917 the average price was 45s. 1d., and for the third quarter of 1908 the average price was 15s. 0d. per cwt.

The average price per cwt. of potatoes at the Dublin Potato Market for the quarter was 6s. 8¾d. In the third quarter of 1917 the average price was 6s. 7½d., and the price for the corresponding quarter of 1908 was 2s. 10½d.

The average price per cwt. of beef at the Dublin Cattle Market was 128s. 9d., as against 123s. 6d. for the third quarter of 1917, the price for the third quarter of 1908 being 56s. 6d.

The price (including cartage) of Whitehaven coal in the City of Dublin was 54s. 6d. per ton nett.

The highest price of Consols at the Dublin Stock Exchange for the quarter was £58½, and the lowest £55¾.

The minimum annual rate of discount charged on Irish Bills at the Bank of Ireland during the quarter was 5 per cent.

The average weekly number of persons receiving out-door relief during the quarter was 33,988, being 823 below the average for the third quarter of 1917.

Of the persons receiving in-door relief during the third quarter of 1918, an average number of 1,414 in each week was located in asylums for the blind and the deaf and dumb, and in extern hospitals; in the corresponding quarter of 1917 the average weekly number was 1,623.

NOTE.—The prices of Consols at the Dublin Stock Exchange have been kindly furnished by the Secretary.

TABLE VII.—Showing the AVERAGE PRICES in DUBLIN of BREAD, OATMEAL, POTATOES, and BEEF, during the quarter (13 weeks) ended 28th September, 1918, with the average for the third quarter of the previous ten years, and the NUMBER of PERSONS in IRELAND receiving IN-DOOR AND OUT-DOOR RELIEF.

NOTE.—This table has been constructed for the years 1844 to 1846.—By taking the English average birth-rate of 1 in 31, and death-rate of 1 in 45, and deducting the annual emigration from Ireland according to the returns received from the Emigration Commissioners in England.

1847 to 1851.—The English birth-rate, as above, was used, deducting the number of deaths and the number of emigrants in each year, as given in the Irish Census Reports of 1851; an allowance, proportioned to the number of recorded deaths and the number of emigrants being made in each year for the excess of the number thus arrived at for 1851 over the actual population according to the Census of that year.

1852 to 1871.—The English birth and death-rates, as above, were used, deducting the number of emigrants, according to the returns obtained by the Registrar-General for Ireland, and allowing for excess over Census numbers for 1861 and 1871, as explained for the last period.

1872–1914.—By adding the Births registered in each year to the estimated population for the previous year, deducting the deaths and emigration, and adjusting the results for the years 1872–81, 1882–91, 1892–1901, and 1902–1911, to allow for the discrepancy between the number thus arrived at for 1881, 1891, 1901, and 1911 respectively, and the population as shown by the Census in each of these years.

1915–1918.—The estimated population for 1915 has been computed as in 1914, with some additional adjustments with regard to the movements of the military. The population in 1915 has been adopted provisionally for 1916, 1917 and 1918.

ABSTRACTS I., II., III., IV.

MARRIAGES Registered during the Quarter ending 30th June 1918, in PROVINCES, COUNTIES, and SUPERINTENDENT REGISTRARS' DISTRICTS (or POOR LAW UNIONS) of IRELAND ; **BIRTHS AND DEATHS** Registered during the Quarter ending 30th September, 1918; Deaths from ENTERIC FEVER, TYPHUS, SMALL-POX, MEASLES, SCARLET FEVER, WHOOPING-COUGH, DIPHTHERIA, DYSENTERY, TUBERCULOUS DISEASE, CANCER, DIARRHŒA and ENTERITIS OF CHILDREN under 2 years, DIARRHŒA of PERSONS aged 2 years and upwards ; also VIOLENT DEATHS,* INQUEST CASES, DEATHS IN PUBLIC INSTITUTIONS, and NUMBER OF UNCERTIFIED DEATHS Registered during the Quarter ending 30th September, 1918, in the PROVINCES, COUNTIES, SUPERINTENDENT REGISTRARS' DISTRICTS, and REGISTRARS' DISTRICTS OF IRELAND ; with a Return of **VACCINATIONS** for that Quarter.

[illegible]

* The Registrars' Districts (829 in number) are Sub-divisions of the Unions or Superintendent Registrars' Districts, and, with a few exceptions, are identical with the Dispensary Districts of the same names formed under the Medical Charities Act. The letter 'I' denotes that the Registrar's District contains within its limits the Workhouse belonging to the Union or Superintendent Registrar's District.
+ The details concerning Births and Deaths in the above table for Districts marked class (34) are taken from the Registrar's Districts.

* Excluding of 3 deaths in the Eastern Division.

† exclusive of 3 deaths in the Rathdown Union Workhouse of persons admitted from Blackrock and Kingstown, to which Urban Districts they have been assigned.

Marriages :—JULY, AUGUST, SEPTEMBER, 1918.

Births and Deaths.—OCT., NOV., DEC., 1918.

During the quarter ended 31st December last, there were registered in the 829 Registrars' Districts in Ireland 20,006 births—a number equal to an annual birth-rate of 18·5 in every 1,000 of the estimated population.* There were 26,650 deaths during the quarter, representing an annual rate of 24·6 per 1,000.

In the same period (according to the returns obtained by the Royal Irish Constabulary and the Dublin Metropolitan Police who acted as enumerators at the several Irish seaports), 260 persons emigrated, 229 of these going to Great Britain.

In England and Wales last quarter the births registered numbered 161,775, and the deaths 241,218, the corresponding numbers for the fourth quarter of 1917 being 153,675 and 112,741.

The birth-rate in Ireland for the quarter is 2·4 below the average rate for the corresponding quarter of the ten years, 1908-1917, but 0·5 above the rate for the fourth quarter of 1917. The deaths are 11,802 above those registered in the corresponding quarter of 1917 ; the death-rate is 10·9 above the rate for that quarter, and 9·0 above the average for the fourth quarter of the ten years, 1908-1917.

In comparison with those for the corresponding quarter of 1917, the returns of pauperism furnished by the Local Government Board show a decrease of 1,630 in the average number of Workhouse inmates on Saturdays during the quarter, but an increase of 914 in the average number of persons on out-door relief.

* See page 201.

The annual rate (5·4 per 1,000 of the population) represented by the marriages registered during the third quarter of 1918 is 0·4 above the average rate for the corresponding quarter of the preceding ten years.

TABLE I.—Showing for each PROVINCE and COUNTY in Ireland, the Annual Rate per 1,000 of the population,* represented by the number of MARRIAGES registered during the Quarter ended 30th September, 1918, and by the BIRTHS and DEATHS registered in the Quarter ended 31st December, 1918.

* Throughout this Report the rates for the total of Ireland are calculated on the estimated population in the middle of 1915; those for the county boroughs of Dublin and Belfast and Londonderry Co. and Co. Borough on the population estimated to the middle of the year 1917; and those for the provinces and remaining counties on the population according to the Census of 1911.

MARRIAGES.

The Marriages (5,825) registered in Ireland during the third quarter of 1918 are equivalent to an annual rate of 5·4 per 1,000 of the estimated population, being 0·6 above the rate for the corresponding quarter of 1917, and 0·4 above the average rate for the third quarter of the ten years, 1908-1917. Of the total number of marriages, 3,906 were registered under the provisions of the 26 and 27 Vic., cap. 90, and 1,919 under the 7 and 8 Vic., cap. 81; the former number being equal to an annual rate of 4·9 per 1,000 of the estimated Roman Catholic population, and the latter affording a rate of 6·8 per 1,000 of the members of all other religious persuasions. The rate under the former heading is 0·4 above, and that under the latter heading is 0·5 above the average rate for the corresponding quarter of the previous ten years.

It is to be borne in mind that in many parts of the country the greater portion of the annual number of Roman Catholic marriages is celebrated in the first quarter, while as regards other marriages the number in the first quarter is generally less than that for any of the other quarters of the year.

TABLE II.—Showing by QUARTERLY PERIODS the MARRIAGES registered in Ireland in each of the ten years, 1908–1917, the average number for that period, also the number registered in the first, second and third quarters of 1918.

BIRTHS.

The number of births registered during the quarter ended 31st December last was 20,006—10,239 boys and 9,767 girls—being equal to an annual ratio of 1 in every 54·2 or 18·5 per 1,000 of the estimated population. The average number of births registered during the corresponding quarter of the ten years, 1908–17, was 22,862, equivalent to an annual rate of 20·9 per 1,000 of the estimated mean population of those years.

The respective birth-rates for the four provinces* last quarter are—Leinster, 19·2 per 1,000 of the population according to the Census of 1911; Munster, 16·8; Ulster, 19·1; and Connaught, 16·7.

DEATHS.

The number of deaths registered in Ireland during the quarter ended 31st December last was 26,650—13,509 males and 13,141 females—affording an annual ratio of 1 in every 40·7 or 24·6 per 1,000 of the estimated population; the average rate for the corresponding quarter of the ten years, 1908–17, was 15·6 per 1,000.

The death-rate in Leinster was 29·8 per 1,000 of the population according to the Census of 1911; in Munster, 20·3; in Ulster, 26·4; and in Connaught, 15·2.

* See note (*) on page 186

TABLE III.—Showing by QUARTERLY PERIODS the number of BIRTHS and DEATHS registered in Ireland in each of the ten years 1908–1917, and the average number for that period; also the number registered during each quarter of the year 1918:—

| YEAR. | BIRTHS. | | | | | DEATHS. | | | | |
|---|--------------------------------|--------|--------|--------|---------|--------------------------------|--------|--------|--------|--------|
| | Quarter ending the last day of | | | | Total. | Quarter ending the last day of | | | | Total. |

| Equivalent Annual Rate per 1,000 living:— | | | | | | | | | | |
| Average, 1908–1917, | 23.1 | 23.8 | 22.1 | 20.9 | 22.5 | 20.2 | 17.8 | 13.9 | 15.6 | 16.9 |
| 1918, | 19.5 | 22.0 | 20.8 | 18.5 | 20.2 | 16.9 | 16.9 | 14.2 | 24.6 | 18.1 |

AGES.—Of the 26,650 deaths registered last quarter, 2,028, or 7.6 per cent., were of infants under one year of age; and 6,867, or 25.8 per cent., were of persons aged 65 years and upwards. The deaths of infants under one year old are equal to 101.3 per 1,000 of the births registered. In the Province of Leinster the number of deaths of infants under one year old equalled 8.3 per cent. of the total deaths registered therein; in Munster, 7.2 per cent.; in Ulster, 7.7 per cent.; and in Connaught, 5.4 per cent. The deaths of persons 65 years old and upwards registered during the quarter in Leinster are equal to 21.9 per cent.; in Munster to 27.9 per cent.; in Ulster, to 25.0 per cent.; and in Connaught to 38.7 per cent. of the total deaths registered in the province.

CAUSES OF DEATH.

As may be seen from the following Table the total number of deaths from the principal epidemic diseases is 553, and is equivalent to an annual rate of 0.51 per 1,000 living, being 366 (or 0.33 per 1,000) under the average for the fourth quarter of the five years preceding.

TABLE IV.—Showing the number of deaths from the principal epidemic diseases returned by the Registrars as having been registered during the quarter ended 31st December, 1918, and in each of the eight quarters immediately preceding; with the averages for the fourth quarter of the five years, 1913–1917, and the corresponding annual rates per 1,000 of the population, represented by the deaths from these causes, during the periods above referred to.

| PERIOD. | Total Deaths registered. | Deaths from Principal Epidemic Diseases. | | | | | | | | | Total | Annual rate per 1,000 of the population. |

ENTERIC FEVER.—There were 63 deaths assigned to this cause, as compared with 53, 63 and 71 for the preceding quarters and an average of 74 for the fourth quarter of the 5 years, 1913-17. Of the 63 deaths, 9 were registered in the union of Clogheen, 8 in Dublin South, 4 in each of the unions of Cork, Limerick, Newry and Sligo, 3 in Boyle union, 3 in Lisburn union (2 of which belonged to Belfast county borough), and 2 in each of the unions of Ardee, Ballinasloe, Banbridge, and Letterkenny.

TYPHUS.—Nine deaths from typhus were registered, being 2 above the average for the corresponding quarter of the 5 years, 1913-17, the deaths for the three preceding quarters of 1918 being 15, 10 and 8, respectively. Of the 9 deaths, 7 belonged to Londonderry union and one to each of the unions of Belmullet and Killarney.

SMALL-POX.—There was no mortality from this cause.

MEASLES.—The fatal cases of this disease numbered 47, the number of deaths in the preceding quarters of the year being 222, 218 and 107, respectively, the average for the fourth quarter of the 5 years, 1913-17, being 118. In Kanturk union 5 deaths, in each of Belfast, Coleraine and Strabane, 4 deaths, and in each of Athy, Cork and Dublin North 3 deaths were registered.

SCARLET FEVER.—To this cause 33 deaths were assigned, the numbers in the preceding quarters of the year being 22, 23 and 13, respectively, with an average of 101 deaths for the December quarter of the 5 years, 1913-17. The 33 deaths were registered as follows:—In Dublin South 6, in Lisburn 6 (all of which belonged to Belfast union), in each of the unions of Limavady and Londonderry 3 deaths, in Ballymena and Donegal unions 2 deaths each and one death in each of the unions of Clones, Dublin North, Dundalk, Ennis, Enniskillen, Navan, Nenagh, Roscommon, Tobercurry, Trim and Tullamore.

WHOOPING-COUGH.—There were 120 deaths from this cause registered during the fourth quarter of the year 1918, the number of such deaths in the preceding quarters of the year being 302, 345 and 190, respectively, and the average for the corresponding quarter of the 5 years, 1913-17 being 129. In Lurgan union 12 deaths, in Cork 11, in each of Castleblayney and Dublin North 6, in each of Fermoy, Larne and Sligo 5, and in each of Ballymoney, Dundalk, Limavady and Rathdown unions 4 deaths were registered.

DIPHTHERIA.—The fatal cases of diphtheria numbered 63 as against 66, 47 and 38 in the preceding quarters of 1918, and an average of 87 for the corresponding quarter of the 5 years, 1913-17. In Dublin South 10, in each of Cork and Lisburn unions 5 (4 of the latter belonging to Belfast county borough), in Ballymena 4, in Newtownards 3, and in each of Bandon, Belfast, Dublin North, Lurgan, Rathdown, Skibbereen, and Strabane 2 deaths.

DIARRHOEAL DISEASES.—There were 218 deaths returned under this heading, including 176 deaths of children under 2 years of age from diarrhoea and enteritis. The 218 deaths are 185 below the average (403) for the December quarter of the 5 years, 1913-17.

TUBERCULOSIS.—The deaths from all forms of tuberculous disease were 2,062 in number, being equivalent to a rate of 1·90 per 1,000 of the estimated population, as compared with rates of 2·19, 2·57 and 2·00, respectively, in the 3 preceding quarters of 1918.

CANCER.—This disease caused 859 deaths, equivalent to a rate of 0·79 per 1,000 of the population. In the three preceding quarters of 1918 the deaths from cancer numbered 862, 867 and 861, respectively.

VIOLENCE.—Deaths under this heading, which includes accidental, homicidal and suicidal cases, were 286 in number.

INQUESTS.

There were 306 inquests reported to the Registrars during the quarter, this number being equal to one in every 87 of the total deaths registered.

In Leinster there was one inquest to every 90 deaths registered, in Munster one to 86, in Ulster one to 73, and in Connaught one to 387.

DEATHS IN PUBLIC INSTITUTIONS.

Of the 26,650 deaths registered, 6,049, or 22·7 per cent., occurred in public institutions. In Leinster the percentage was 28·1, in Munster 26·3, in Ulster 17·7, and in Connaught 16·6.

UNCERTIFIED DEATHS.

According to the returns, 4,238 of the 26,650 deaths registered during the quarter were uncertified, being 16 per cent. of the total. In Leinster the percentage was 12, in Munster 19, in Ulster 13, and in Connaught the uncertified deaths were 40 per cent. of the total deaths registered in the province.

URBAN DISTRICTS.

THE QUARTER.

Table V. gives separate statistics for the Urban Districts. It will be observed that the birth-rate last quarter for these districts, which contain nearly one-third of the total population of the country, was 20·7 per 1,000 of the population, the rates for the three preceding quarters being 21·7, 24·1, and 23·6, respectively, and the average rate for the 5 years, 1913-17, being 22·4. In the remainder of the country the birth rate was 17·1 per 1,000, as against 18·1, 20·6, and 19·1, respectively, in the three preceding quarters, and an average rate for the corresponding quarter of the previous five years of 18·7.

The annual rate represented by the deaths from all causes for the Urban Districts during the quarter was 30·5 per 1,000, as compared with 18·9, 18·8, and 17·7, respectively, for the last three quarters and an average of 17·3 for the fourth quarter of the five years, 1913-17. In the remainder of the country the death-rate for the quarter was 21·3, the respective rates for the three preceding quarters being 15·7, 15·6, and 12·3, per 1,000, the average rate for the five years, 1913-17, being 14·1.

For the principal epidemic diseases* in the several Urban Districts the annual rate represented by the deaths from them during the quarter under review was 0·7 per 1,000 of the population. In the remainder of the country it was 0·4.

THE YEAR 1918.

It will be seen from Table VI. that the rate represented by the number of births registered in the Urban Districts of Ireland during the year 1918 was 22·0 per 1,000 of the population, as compared with 25·0, 23·1, and 21·6, respectively, in the three preceding years.

For the Rural Districts the birth rate in 1918 was 19·0, the birth rates for the three years 1915-17 being 20·3, 19·7, and 18·8.

In the Urban Districts the death rate from all causes was 21·4 per 1,000, as against 19·3, 17·6, and 17·2 in the three years preceding. In the remainder of the country the death rate from all causes was 16·2 per 1,000, as compared with 16·4, 15·7, and 16·3 in the three years 1915-17.

For the principal epidemic diseases* in 1918, the rate in the Urban Districts per 1,000 of the population was 1·4, and in the Rural Districts it was 0·4 per 1,000.

The Infant mortality rate for the Urban Districts, based on the Births and Deaths of Infants under one year of age registered during the year 1918, as returned by the Registrars, was 128 per 1,000 Births, the rate for the Rural Districts being only 61 per 1,000.

* See note (†) on page 191.

URBAN DISTRICTS.

TABLE V.—BIRTHS and DEATHS registered during the FOURTH QUARTER of the year 1918, in the DUBLIN REGISTRATION AREA, and in each of the PROVINCIAL URBAN DISTRICTS in IRELAND (exclusive of Deaths in Public Institutions of Persons admitted from other localities), with the number of deaths from each of the PRINCIPAL EPIDEMIC DISEASES †, from TUBERCULOUS DISEASE, and from CANCER, with the number of Uncertified Deaths.

NOTE.—“The Dublin Registration Area,” consists of the City of Dublin and the Urban Districts of Rathmines and Rathgar, Pembroke, Blackrock, and Kingstown. The details for it and for each of the eighteen Urban Districts marked thus (*) in the following Table have been compiled from the Weekly Returns furnished by the Registrars, and relate to the thirteen weeks ending Saturday, 28th December, 1918.

Enteric fever, typhus, small-pox, measles, scarlet fever, whooping-cough, diphtheria, dysentery, and diarrhoeal diseases.

† Enteric fever, typhus, small-pox, measles, scarlet fever, whooping-cough, and its component parts and for Belfast and Londonderry are calculated on the estimated population in the middle of 1917. The rates for the total of Ireland and for the Dublin Registration Area and for the Dublin Registration Area and its component parts are calculated on the estimated population in the middle of 1917.

(a) The births in the Dublin Registration Area given above are corrected for those occurring in Institutions.

(b) Including 7 deaths from cerebro-spinal fever or cerebro-spinal meningitis

(c) Including 2 deaths from cerebro-spinal meningitis.

VACCINATION.

According to the Returns of Primary Vaccinations received for the fourth quarter of the year 1918, there were 9,868 persons successfully vaccinated.

The total number of Primary Vaccinations for the year 1918 was 57,160.

EMIGRATION.

The Returns obtained by the Royal Irish Constabulary and the Dublin Metropolitan Police, who acted as enumerators at the several Irish seaports, show that the number of emigrants who left Ireland during the quarter ended 31st December last was 260 (113 males and 147 females), being 201 less than in the corresponding quarter of the year 1917, and 3,380 below the average number for the fourth quarter of the ten years 1908–1917.

TABLE VII.—EMIGRATION from IRELAND during the months of October, November, and December, in 1917 and 1918:—

| MONTHS. | NUMBER OF EMIGRANTS. | | | | | | | | | | | |
|--------------|----------------------|-------|------------|------------|----------|-------|------------|------------|--------|-------|------------|------------|
| | Males. | | | | Females. | | | | Total. | | | |

| TOTAL, .. | 205 | 113 | . | 92 | 256 | 147 | . | 109 | 461 | 260* | . | 201 |

*Including 229 emigrants to Great Britain. Of these 88 left in the month of October, 70 in November, and 71 in December.

PRICES AND PAUPERISM.

The average price of Messrs. Boland's (Limited) 4-lb. loaf for last quarter was 9½d., which was also the average price of Messrs. Johnson, Mooney, and O'Brien's (Limited), bread, delivered. In the fourth quarter of the year 1917 the average price for both firms was 9d., and in the corresponding quarter of 1908 the average price was 6d.

The average price of oatmeal (1st quality) in Dublin for the quarter was 36s. 0d. per cwt. For the fourth quarter of the year 1917 the average price was 35s. 2d., and for the fourth quarter of 1908 the average price was 15s. 0d. per cwt.

The average price per cwt. of potatoes at the Dublin Potato Market for the quarter was 6s. 4¼d. In the fourth quarter of 1917 the average price was 5s. 0¼d., and the price for the corresponding quarter of 1908 was 2s. 3¼d.

The average price per cwt. of beef at the Dublin Cattle Market was 126s. as against 117s. 9d. for the fourth quarter of 1917, the price for the fourth quarter of 1908 being 54s. 9d.

The price (including cartage) of Whitehaven coal in the City of Dublin ranged from 54s. 6d. to 58s. 6d. per ton net.

The highest price of Consols at the Dublin Stock Exchange for the quarter was £62¾, and the lowest £59.

The minimum annual rate of discount charged on Irish Bills at the Bank of Ireland during the quarter was 5 per cent.

The average weekly number of persons receiving out-door relief during the quarter was 35,477, being 914 above the average for the fourth quarter of 1917.

Of the persons receiving in-door relief during the fourth quarter of 1918, an average number of 1,428 in each week was located in asylums for the blind and the deaf and dumb, and in extern hospitals; in the corresponding quarter of 1917 the average weekly number was 1,619.

NOTE.—The prices of Consols at the Dublin Stock Exchange have been kindly furnished by the Secretary

TABLE VIII.—Showing the AVERAGE PRICES in DUBLIN of BREAD, OATMEAL, POTATOES, and BEEF, during the quarter (13 weeks) ended 28th December, 1918, with the average for the fourth quarter of the previous ten years, and the NUMBER of PERSONS in IRELAND receiving IN-DOOR AND OUT-DOOR RELIEF.

NOTE.—The average prices of Oatmeal, Potatoes, and Beef given in the above Table have been kindly supplied by the Department of Agriculture and Technical Instruction for Ireland ; and the number of persons receiving In-door and Out-door Relief by the Local Government Board.

METEOROLOGY.*

[Prepared at the Meteorological Office under the Direction of Col. H. G. Lyons, R.E., F.R.S.]

OCTOBER.

Very generally the month was dull and rainy, with damp fog and mist on many days. The temperature as well as the sunshine was deficient, whereas the rainfall was above the normal.

Temperature.†—On the average in the northern half of the country the mean monthly temperature was 0·4a below the normal and in the southern half 0·6a. The highest reading recorded during the month was 292a at Killarney on the 9th, and the lowest 270a at Dublin (Phoenix Park) on the 23rd.

Precipitation.—In the North the total rainfall for the month was 116 mm., and in the South 117 mm., the former district having an excess of 22 mm. and the latter 17 mm. On the 30th Blacksod Point had a heavy downpour of 36 mm. and Killarney 34 mm. on the 5th. At the latter station as also at Foynes the month's total rainfall exceeded the normal by 52 mm.

Temperature Scales.

* Furnished by the Director of the Meteorological Office. For further information the reader is referred to the Monthly Weather Report (price 6d., post free 7d.) and other publications of the Meteorological Office. Maps illustrating the distribution of rainfall, pressure, temperature and sunshine are given in the Monthly Weather Report. The normal values for each month, mostly based on 35 years' observations, are shown by tables and maps in "Monthly Normals of Temperature, Rainfall and Sunshine." (M.O. 214a, IV., 1915, Price 2s. 6d.)

† Temperature is given on the Absolute Centigrade Scale. To the nearest degree 255a=0°F., 273a=32°F. 280a=45°F., 300a=81°F., and 310a=99°F.

Sunshine.—There was a deficiency of 0·82 hour per day of sunshine both in the North and in the South ; the mean daily amount in the former district was 2·05 hour and in the latter 2·45 hour.

NOVEMBER.

South-west and West winds prevailed throughout the month, with the result that the temperature of the period was of an average character. At the beginning of the month, and also at the end, the weather was unsettled, wet, and gloomy, but the intervening period was fine, occasional frost occurring at night. Snow, sleet, and hail were almost entirely absent.

Temperature.—Temperature differed but little from the normal over the country generally, the North being slightly below (by 0·2a), and the South exactly normal. The highest of the individual readings was 287a, a figure recorded at Dublin (Trinity College) on the 4th, at Birr Castle on the 24th, and at Killarney on the 28th. The lowest reading was 266a at Cahir on the 19th.

Precipitation.—In the North the total rainfall for the month was 96 mm. and in the South 87 mm., the former value being 2 mm. below the normal and the latter 15 mm. The heaviest of the individual daily amounts were 46 mm. at Lisburn, 38 mm. at Waterford, and 37 mm. at Ranelagh on the 1st.

Sunshine.—Sunshine was comparatively abundant in the North but slightly deficient in the South, the former recording 2·68 hours per day and the latter 2·14 hours, the departures from the normal being †0·73 hour and —0·07 hour respectively.

DECEMBER.

The last month of the year was very rainy and abnormally mild, and snow and sleet were rarely seen. The opening week was especially mild, the mean temperature at Markree Castle being 5·8a above the normal, and at Dublin (City) and Armagh 5·7a above.

Temperature.—For the month as a whole the temperature was 2·0a above the normal in the northern half of the country and 1·8a above in the southern half. At Birr Castle the excess was as much as 2·8a. Of the individual readings the highest was 290a at Dublin (Trinity College) on the 4th, and the lowest 270a at Kilkenny and Lisburn on the 21st.

Precipitation.—The aggregate rainfall in the North was 121 mm., and in the South 149 mm. There was an excess in both districts of 18 mm. and 30 mm. respectively. At Killarney there was rain on every day of the month, and on 29 days at Armagh, Blacksod Point, Markree Castle, Foynes, Cahirciveen, and Roche's Point.

Sunshine.—In the North the mean daily amount of sunshine was 1·50 hours and in the South 1·76 hours, and in both districts there was an excess of half an hour per day. At Seskin (Carrick-on-Suir) the daily mean was 2·45 hours, but at Dublin (Trinity College) only 1·03 hours.

THE QUARTER.

The temperature of the quarter was 0·5a above the normal both in the North and in the South. The rainfall also was excessive, the northern half of the country having an aggregate of 333 mm., which represented an excess of 40 mm. above the normal ; while the southern half had 353 mm., which was 33 mm. above normal. In the North there were 69 rain-days (5 above normal), and in the South 68 (7 above normal). Sunshine differed but little from the normal, and in both districts the daily mean was 2·1 hours, there being a slight excess of 0·1 hour in the North and a slight deficiency of 0·2 hour in the South.

TABLE IX.—Showing the MEAN WEEKLY VALUES and the difference from their NORMAL VALUES of the meteorological elements at the Phoenix Park, Dublin,* for the thirteen weeks ended December 28th, 1918.

NOTE.—This table has been constructed for the years 1844 to 1846.—By taking the English average birth-rate of 1 in 31, and death-rate of 1 in 45, and deducting the annual emigration from Ireland according to the returns received from the Emigration Commissioners in England.

1847 to 1851.—The English birth-rate, as above, was used, deducting the number of deaths and the number of emigrants in each year, as given in the Irish Census Reports of 1851; an allowance, proportioned to the number of recorded deaths and the number of emigrants being made in each year for the excess of the number thus arrived at for 1851 over the actual population according to the Census of that year.

1852 to 1871.—The English birth and death-rates, as above, were used, deducting the number of emigrants, according to the returns obtained by the Registrar-General for Ireland, and allowing for excess over Census numbers for 1861 and 1871, as explained for the last period.

1872-1914.—By adding the Births registered in each year to the estimated population for the previous year, deducting the deaths and emigration, and adjusting the results for the years 1872-81, 1882-91, 1892-1901, and 1902-1911, to allow for the discrepancy between the number thus arrived at for 1881, 1891, 1901, and 1911 respectively, and the population as shown by the Census in each of these years.

1915-1918.—The estimated population for 1915 has been computed as in 1914, with some additional adjustments with regard to the movements of the military. The population in 1915 has been adopted provisionally for 1916, 1917 and 1918.

MARRIAGES Registered during the Quarter ending 30th September 1918, in PROVINCES, COUNTIES, and SUPERINTENDENT REGISTRARS' DISTRICTS (or POOR LAW UNIONS) of IRELAND; **BIRTHS AND DEATHS** Registered during the Quarter ending 31st December, 1918; Deaths from ENTERIC FEVER, TYPHUS, SMALL-POX, MEASLES, SCARLET FEVER, WHOOPING-COUGH, DIPHTHERIA, DYSENTERY, TUBERCULOUS DISEASE, CANCER, DIARRHŒA AND ENTERITIS OF CHILDREN under 2 years, DIARRHŒA OF PERSONS aged 2 years and upwards; also VIOLENT DEATHS,* INQUEST CASES, DEATHS IN PUBLIC INSTITUTIONS, and NUMBER OF UNCERTIFIED DEATHS Registered during the Quarter ending 31st December, 1918, in the PROVINCES, COUNTIES, SUPERINTENDENT REGISTRARS' DISTRICTS, and REGISTRARS' DISTRICTS OF IRELAND; with a Return of **VACCINATIONS** for that Quarter.

ABSTRACT I.—PROVINCES AND COUNTIES.

| PROVINCES and COUNTIES. | Area in Statute Acres. | Popula- tion in 1911 | Marriages. | | Births. | | Deaths. | | The Deaths registered during the Quarter are stated by the Registrars to include | | | | | | | | | | | | | Number of successful Vaccinations in the Quarter ending 31st Dec., 1918. | | | | | |
|---------------------------------|---------------------------------------|-------------------------------|--|---|---|--|--|--|--|-------|----------------|---------|------------|----------|----------------|-----------------|-------------|------------|----------------------|---------|---|--|---|------------|----------------|-------------------------------------|----------------------------------|
| | | | Averages in the Quarters ending 30th Sept., 1917. 10 years, 1908-1917. | Registered in the Quarter ending 30th Sept., 1918. | Averages in the Quarters ending 31st Dec., 1917. 10 years, 1908-1917. | Registered in the Quarter ending 31st Dec., 1918. | Averages in the Quarters ending 31st Dec., in the 10 years, 1908-1917. | Registered in the Quarter ending 31st Dec., 1918. | Deaths from | | | | | | | | | | | | | | | | | | |
| | | | | | | | | | Deaths of | | Enteric Fever. | Typhus. | Small-pox. | Measles. | Scarlet Fever. | Whooping-cough. | Diphtheria. | Dysentery. | Tuberculous Disease. | Cancer. | Diarrhoea and Enter- itis of Children under 2 years of age. | | Diarrhoea, 2 years of age and upwards. | Violence*. | Inquest Cases. | Deaths in Public In- stitutions. | Number of Uncertified Deaths. |
| Infants under 1 year of age. | Persons aged 65 years and upwards. | | | | | | | | | | | | | | | | | | | | | | | | | | |

* The Registrars' Districts (829 in number) are Sub-divisions of the Unions or Superintendent Registrars' Districts, and, with a few exceptions, are identical with the Dispensary Districts of the same names formed under the Medical Charities Act. The letter W denotes that the Registrar's District contains within its limits the Workhouse belonging to the Union or Superintendent Registrar's District.

† The details concerning Births and Deaths in the above table for Districts marked thus (†) on pages 21 and 214 are extracted from the Weekly Returns made by the Registrars, and relate to the 13 weeks extending from 29th September, 1918, to 24th December, 1918. With the exception of 313 deaths of persons from localities outside the "Dublin Registration Area," the deaths in Public Institutions in these districts have been assigned to the respective districts comprised in the "Dublin Registration Area" from which the deceased were admitted.

‡ Exclusive of 5 deaths in the Rathdown Union Workhouse of persons admitted from Blackrock and Kingstown, to which Urban Districts they have been assigned.
